

assemblerRounds/bilder.h

```
graph BT; A[assemblerRounds/bilder.c] --> B[assemblerRounds/bilder.h]; C[assemblerRounds/rounds.c] --> B;
```

The diagram illustrates the dependencies of the header file `assemblerRounds/bilder.h`. It is represented by a gray rectangular box at the top. Below it, two white rectangular boxes represent source files: `assemblerRounds/bilder.c` on the left and `assemblerRounds/rounds.c` on the right. Two blue arrows point from these source files up to the header file, indicating that both source files include or depend on the header file.
