

assemblerRounds

```
graph TD; A[assemblerRounds] -- 2 --> B[trie];
```

A diagram showing a flow from a light blue box labeled 'assemblerRounds' to a white box labeled 'trie'. A vertical arrow points from the bottom of the 'assemblerRounds' box to the top of the 'trie' box. The number '2' is positioned to the right of the arrow, indicating a value or count associated with the flow.

trie
