

assemblerRounds/structs
_func.h

```
graph TD; A[assemblerRounds/structs_func.h] --> B[../trie/trie.h]; A --> C[structs.h]
```

The diagram illustrates a header file dependency. A central box at the top, labeled 'assemblerRounds/structs_func.h', has two blue arrows pointing downwards to two separate boxes below it. The left box is labeled '../trie/trie.h' and the right box is labeled 'structs.h'. This indicates that the 'assemblerRounds/structs_func.h' file includes both of these other header files.

../trie/trie.h

structs.h
